Supported Display Resolution

Resolution	Refresh rate
• Computer formats	
640 x 480	60Hz
800 x 600	60Hz
1024 x 768	60Hz
• Video Formats	
640 x 480i	1Fh
640 x 480p	2Fh
720 x 576i	1Fh
720 x 576p	2Fh
1280 x 720p	3Fh
1920 x 1080i	2Fh

Sound
- Output power (RMS): 2x15W
- Sound Enhancement: Auto Volume Leveller, Digital Signal Processing, Dynamic Bass Enhancement, Graphic Equaliser
- Sound System: Virtual Dolby Digital

Loudspeakers
- Built-in speakers: 2

Multimedia Applications
- Digital Content Management: Digital Media Reader
- Memory Card Types: Compact Flash, Compact Flash type II, Memory Stick, Microdrive, MMC, Secure Digital, Smart Media
- Multimedia connections: USB
- Playback Formats: JPEG Still pictures, MP3, Slideshow files (.alb)

Tuner/Reception/Transmission
- Aerial Input: 75 Ohm F-type
- Cable: Unscrambled Digital Cable -QAM, Digital Cable Ready CableCARD
- TV system: ATSC, NTSC
- Video Playback: NTSC

Connectivity
- AV 1: (1, 2, 3Fh autoranging), Audio L/R in, Component Video in, CVBS in, RGB+H/V, Y/C, YPbPr
- AV 2: Audio L/R in, CVBS, Y/C
- AV 3: (1, 2, 3Fh autoranging), S/PDIF digital coaxial, YPbPr
- AV 4: HDMI
- AV 5: HDMI
- Front / Side connections: Audio left/right in, CVBS in, Headphone out, S-video in, 2x USB, Multi-slot memory card reader
- Other connections: Monitor out, CVBS, L/R (cinch), SP-DIF in (coaxial), SP-DIF out (coaxial), Cable Card Interface

Convenience
- Child Protection: Child Lock+Parental Control
- Clock: Smart Clock
- Ease of Installation: Automatic Tuning System (ATS), Autostore, PLL Digital Tuning, Plug & Play
- Ease of Use: Channel list, Delta Volume per preset, On Screen Display, Side Control, Smart Picture Control, Smart Sound Control
- Picture in Picture: HDMI-Component PIP
- Remote Control: Amp, CBL, DVD, DVD-R, Sat, STB, Universal and Learnable, VCR
- Remote control type: RC4318
- Screen Format Adjustments: 7 Widescreen Modes, Auto Format, Subtitle and Heading Shift
- Teletext: Closed Captioning Full Text

Accessories
- Included Accessories: Motorised RC swivel stand

Dimensions
- Product dimension (WxDxH) inch: 48.8 x 26.8 x 4.1"
- Weight incl. Packaging in lbs: tbc
- Product weight in lbs: 77.2
- Color cabinet: Pearl - White Silver (11092)
- VESA wall mount compatible: 800,400 mm

Power
- Ambient temperature: +5 -/+ 40 C
- Mains power: AC 110 - 120 V +/- 10%
- Power consumption: 154 W
- Standby power consumption: <2W

Product highlights

LCD WXGA display, 1366 x 768p
This WXGA display with state-of-the-art LCD screen technology gives you widescreen HD resolution of 1366 x 768p pixels. It produces brilliant flicker-free progressive scan pictures with optimum brightness and superb colors. This vibrant and sharp image will provide you with an enhanced viewing experience.

Digital Cable Ready
The CableCARD is a removable card distributed by the cable providers that is inserted in the TV. This enables the "Plug-and-Play DTV" functionality as agreed between cable operators and consumer electronics manufacturers. It allows the decoding of encrypted or scrambled content delivered from the cable system. CableCARD functionality includes conditional access and copy protection. A CableCARD-enabled television without a CableCARD inserted receives high-definition standard TV broadcasts. When a CableCARD is inserted, the television receives high-value high-definition, cable programming.

HDTV
HDTV delivers exceptional picture quality and real movie-viewing experience that makes television more dynamic, truer than anything you've seen before. It is the latest and best television signal available. It features picture quality more than twice that of traditional analog broadcasts. In order to effectively maximize the HDTV signal, a television must incorporate advanced signal input connectivity and circuitry design. To use HDTV the TV must be connected via its component video or DVI inputs to a DTV set-top box and set to operate in the DTV mode.

Pixel Plus 2 HD
Pixel Plus 2 HD offers the unique combination of ultimate sharpness, natural detail, increased depth, vivid colors and smooth and natural motion from standard TV, High Definition signals and multimedia sources. Each pixel of the incoming picture is enhanced to better match the surrounding pixels, resulting in a more natural picture. Artefacts in compressed multimedia content are detected and reduced, ensuring that the picture is clean and razor sharp. Digital noise reduction ensures that the picture is perfectly smooth yet razor sharp.

Ambilight 2
Ambilight makes an impressive contribution to the overall viewing experience by producing ambient light to complement the colors and light intensity of the on-screen image. It adds a new dimension to the viewing experience, completely immersing you into the content you are watching. It creates ambiance, stimulates more relaxed viewing, and improves perceived picture detail, contrast and color. Ambilight automatically and independently adapts its colors according to the changing content on the screen.

Bypacked motorized swivelstand
The high-quality stand is designed specifically for this TV, and facilitates easy placement of your Flat TV without drilling holes in the wall. Enjoy the finger-tip convenience of finding the best viewing angle and the magic effect of the motorized swivel operated by the TV's remote control. It rotates over a total range of 60 degrees (30 degrees each side), with memory positions for the central-, and 'previous position'. Invisible Cable management is included in the back. This stand is designed to fit on the matching accessory floorstand.
